## Reliance Globalcom Joins MEF Carrier Ethernet Panels At NXTComm08

*Reliance Globalcom Executives Discuss the Future of Carrier Ethernet and Current MEF Certification Efforts - May 28, 2008*

### Who:

[Reliance Globalcom Services, Inc.](#), the leading provider of managed network and application delivery services for the global enterprise

- Keao Caindec, Chief Marketing Officer
- Craig Waldrop, Senior Product Manager, Core Services

### What:

Reliance Globalcom will participate in multiple MEF panel discussions including:

"Carrier Ethernet Certification Update" - Highlighting the key areas of Carrier Ethernet standardization, and current and future specifications including network-to-network interfaces (NNIs) and classes of service (CoS). Caindec will share the company's success in E-NNIs with carriers around the world. The panel will discuss the MEF's work to define Ethernet services, UNI Type 2, network interface device (NID) specifications, Ethernet service constructs, and abstract test suites for certification.

"Ethernet the World" - Exploring Carrier Ethernet's market maturity, demand drivers for growth, and the future of 40 G and 100 G networks. Waldrop will address the need for flexibility and scalability, and how Reliance Globalcom is uniquely positioned to guarantee business outcomes for customers worldwide via expertise in plug-and-play Ethernet technology and the world's largest independent fiber network.

[The Metro Ethernet Forum](#) is a global industry alliance comprising more than 140 organizations. The MEF's mission is to accelerate the worldwide adoption of Carrier-class Ethernet networks and services. The MEF develops Carrier Ethernet technical specifications and implementation agreements to promote interoperability and deployment of Carrier Ethernet worldwide. The MEF will host three days of panel discussions at [NXTComm08](#), which is the one event delivering the entire ecosystem of network-enabled voice, video, and data. Sponsored by TIA and USTelecom, NXTComm08 will be co-located with InfoComm08, the audio-visual industry's leading trade show.
