Reliance Globalcom provides multi-sourcing WAN management for Mott MacDonald

Ability to deliver reliable and effective network across the Middle East impresses the global management, engineering and development consultancy

LONDON – June 10, 2009 – [Reliance Globalcom](#), the leading global provider of managed [network and communication services](#) for multinational enterprises, carriers and consumers, today announced a new contract win with Mott MacDonald – one of the world’s leading global management, engineering and development consultancies – to design, implement and manage a business critical MPLS Wide Area Network (WAN) solution across the Middle East.

The new, multi-million USD network will connect key office and project management sites across challenging UAE, Oman, Bahrain and Qatar geographies with data centres in UK and India. The solution, utilising Reliance Globalcom’s award winning MPLS Matrix offering, will enable the integration of local in-country and regional service providers under one point of management with industry leading Service Levels.

Darren Russell, Global IT Director at Mott MacDonald said, “Reliance Globalcom’s approach, integrating best-fit local carriers across the region and globally, provided a service that we could not get at a competitive price from other single-point of management solutions.”

“The relationship with Mott McDonald shows the real value of our consultative approach and the flexibility of our service offerings,” Tom Homer, UK Managing Director, Reliance Globalcom commented. “This contract was based on providing a transparent and competitive solution across the Middle East.”
